PROFESSIONAL SUMMARY

Architecture student at UTS (graduating May 2026) with internship experience at an international design studio, contributing to concept design, site work, and documentation. Skilled in Rhino, with developing proficiency in Revit and strong capabilities in Adobe Creative Suite. Currently undertaking a Graduate Certificate towards a Master of Construction Management. A motivated and detail-oriented individual seeking to apply technical and design skills in a professional architecture environment.

EDUCATION

2026 - Now

Graduate Certificate of Construction Management

University of Technology Sydney / Australia, Sydney

2023 - 2025

Bachelor of Design in Architecture

University of Technology Sydney / Australia, Sydney

- Developed spatial design, conceptual thinking, and visual communication abilities
- Gained knowledge in architectural history, sustainability, and built environment systems
- Completed collaborative design studios, presentations, and project-based coursework
- Relevant Coursework: Sustainable Design, Advanced Structures, Urban Planning

INTERNSHIPS

December 2024 - February 2025

Architectural Intern

OUT-2 Design / Vietnam, Ho Chi Minh City

- Supported architectural design teams across various project types, contributing to multiple stages of the design process
- Assisted in space and time utilisation studies and concept design development
- Participated in site visits, measurements, and project documentation
- Prepared drawings, diagrams, 3D models, and visualisations for presentations
- Contributed to reporting and coordination tasks across different project requirements
- Collaborated effectively with architects and designers in a professional, fast-paced environment
- Demonstrated strong teamwork and communication skills while meeting deadlines
- Worked independently and as part of a team to ensure high-quality design outcomes
